STATEMENT OF SIGNIFICANCE

For each area of significance checked above, explain why this property is important. Use additional sheets as necessary.

The Craig/Wilson House is a good representation of the raised cottages that were built on plantations before the civil war. The home is of balloon, pegged construction and sits in its original location. It also retains all of its original woodwork which include molded trim, greek revival mantles, and doors. The victorian porch on the front of the home is significant to the changing styles through the years.
