9. HISTORY

Statement of Significance

The statement of significance is a concise, factual statement of the reason for nominating the property to the Alabama Register and should contain a chronological history of the property.

Using ***Researching and Documenting Old Buildings in Alabama***, carefully research the history of the property, its owners, and events associated with it. You should prepare a summary sheet of the information and submit it with the nomination. Photocopies of the documents are not necessary, although photocopies of early photographs or maps are helpful, particularly if the property being nominated is a building that has been altered. The written statement should be divided into two parts:

1. why the property is important and why it is it worthy of being nominated.
2. A chronological history of the property and its significant associations. Briefly describe the prehistory or history of the community where the property is located as it directly relates to the property. Highlight any notable events and patterns of development that affected the property's history, significance, and integrity.

The nomination should include the following data:

- a. Date of construction
- b. Name and significant historical data about the person or company for which the building was constructed, including dates of birth, death, and occupancy
- c. Names and data about subsequent significant owners
- d. If the building is significant for associations with an event or activity, include a description of the event or activity and relate it to the building.
- e. A discussion of the architectural significance of the building.
- f. Name of craftsmen or architects and references to other known buildings by these persons
- g. The sequence of changes to the building
- h. A short statement of the present or planned preservation efforts, or current threats to the property.

10. MAJOR BIBLIOGRAPHICAL REFERENCES

The bibliography should record all sources of information, including interviews. Correct bibliographical form must be used. Include name of author, title, publisher, place of publication, and date of publication. See ***Researching and Documenting Old Buildings in Alabama*** for examples.

11. FLOOR PLAN & SITE PLAN

The floor plan/site plan can be hand drawn or computer generated. Indicate on floor plan/site plan dates of additions or demolitions to the original building. Also give dates for any outbuildings (i.e., well houses, outhouse, barn, corn crib, storage facility, smokehouse, etc.) that are still standing on the property. If, however, when the house was originally built, it had one or more of these buildings that are no longer standing, indicate on the site map where these buildings were, when they were built, and when they were torn down.

12. MAP

Please attach a map of the property.

13. PHOTOGRAPHS

Digital images are the preferred image type with Alabama Register submissions. Digital pictures can be sent as prints or on a CD or DVD. Make sure images are clear and in focus, and well illuminated. If you cannot submit digital pictures, please send color photographs that are at least 4x6 in size.

We must have sufficient photographic representation of the nominated property. If there are additional outbuildings associated with the property, such as a garage, barn, etc., please provide images of **all** the buildings. For the main property, provide exterior images of all four sides of the building, views of the general setting, overall views of the property, close up images of the main entrances and notable historic features. On the interior, provide overall room views that show historic wall, ceiling, and floor material, original trim, original door and window hardware, historic light fixtures, original doors, mantels, and staircases.

If the property that is being nominated is not a building, please provide as many images of the property as possible that would provide us the most comprehensive view of the property's physical characteristics.

Please do not submit images of historic furnishings unless they are crucial to understanding the significance of the property.
