

# ATTENTION CITY OFFICIALS AND CIVIC LEADERS

Does your city have a comprehensive plan?

Are your historic properties, downtowns and neighborhoods considered assets?

Are you leveraging those assets for positive economic growth?

**The Certified Local Government program may be able to help.**

Join the Demopolis CLG program, the Alabama Historical Commission and UWA's Division of Economic Development and Outreach as they take a closer look at CLGs as a tool for positive economic development.

On August 28 from 10:30 – noon CLG basics will be offered. This will be the first of a 5-part series. Each session is a stand-alone event, but we hope you will join us for all five to gain the maximum impact of the series. We have a slate of local, state and national leaders in place-based economics who will share their tricks of the trade with us as we learn to leverage our historic assets for the benefit of our communities.

*To register or for more information, contact UWA's Division of Economic Development and Outreach Executive Director Dr. Tina N. Jones at [tnj@uwa.edu](mailto:tnj@uwa.edu) or call (205) 652-3833.*
