## **14. Additional Materials**

---

- Map - A map showing the location of the property. [www.google.com/maps](http://www.google.com/maps) is a helpful site.
- Floor Plan / Site Plan - The floor plan/site plan can be hand drawn or computer generated. Indicate on floor plan/site plan dates of additions or demolitions to the original building. Also give dates for any outbuildings (i.e., well houses, outhouse, barn, corn crib, storage facility, smokehouse, etc.) that are still standing on the property. If, however, when the building was originally constructed, it had one or more of these buildings that are no longer standing, indicate on the site map where these buildings were, when they were built, and when they were torn down.
- Photographs - Digital images are the preferred image type with Places in Peril submissions. Digital pictures can be sent as prints or on a CD or DVD. Make sure images are clear and in focus, and well illuminated. If you cannot submit digital pictures, please send color photographs that are at least 4x6 in size. We must have sufficient photographic representation of the nominated property. If there are additional outbuildings associated with the property, such as a garage, barn, etc., please provide images of **all** the buildings. For the main property, provide exterior images of all four sides of the building, views of the general setting, overall views of the property, close up images of the main entrances and notable historic features. On the interior, provide overall room views that show historic wall, ceiling, and floor material, original trim, original door and window hardware, historic light fixtures, original doors, mantels, and staircases.
- If the property that is being nominated is not a building, please provide as many images of the property as possible that would provide us the most comprehensive view of the property's physical characteristics.
- Please do not submit images of historic furnishings unless they are crucial to understanding the significance of the property.
